

Special Session (SS11) on:

Climate change adaptation and territorial planning at a regional level: latest developments

Organizers:

Carolina T. da Silva Bernardo (Chair), University of Minho, caroltsbernardo@gmail.com

João Cerejeira, University of Minho, joao.cerejeira@eeg.uminho.pt

Rita Sousa, University of Minho, ritasousa@eeg.uminho.pt

The aim and scope:

This section aims to discuss the contributions to a climate-adapted environment on a regional or local planning scale. Therefore, studies that adapted methods or tools to understand a regional climate-change adaptation environment will be accepted. With the works presented, we hope to compile the contributions that can be used to analyze how climate change act on environmental and economic activities on a regional scale.
