Topic

Umbrella Topic

“Sustainable Transformation and Spatial Interaction of People and Places: Urban and Rural Landscapes for mobility, migration and tourism”

Sustainable transformation of urban and rural landscapes is reshaping spatial interactions between people and places, particularly in the context of mobility, migration, and tourism. Counter-urbanization, or the reverse migration from cities to rural areas, is driven by factors such as digital connectivity, improved infrastructure, and a desire for lifestyle changes. Rural areas are adapting to accommodate this influx, developing new forms of tourism like agritourism and eco-lodges, while also experiencing challenges such as rural gentrification and pressure on local resources. The interplay between urban and rural spaces is creating new opportunities for economic diversification, cultural exchange, and sustainable development, but also raises concerns about preserving natural and cultural heritage. In order to promote the long-term sustainability of both urban and rural environments, communities and policymakers must collaborate as this transition takes place to ensure that social equity, environmental preservation, and economic growth are balanced.

Instructions to Chairs and Presenters

1. Sessions will last 1:30 hours. Please stick to the times shown in the program. If you have a no-show, please use the time for a discussion of the proceeding paper(s) or for a recess. Do not shift papers to fill voids, as individuals may want to attend a particular paper.
2. The majority of sessions have 5 papers. **Each presenter is allocated 10 minutes, followed by 5 minutes discussion.**
3. Hold each individual to the time available. If a speaker continues after time has expired, please let her/him know that time has expired. The audience and the other speakers will respect and support your decision.

We recall that the duties of a Session Chair are the following one:

- To promote compliance with schedules and the fair distribution of time available for all communications; and
- To manage the debate time.

Paperless conference

APDR is committed to acting sustainability and environmentally responsible in as many ways as possible. To achieve this, the APDR has implemented several actions to reduce its environmental impact on his events, namely, by promoting a paperless conference.

Paperless practices

- The APDR no longer prints an abstract book or extended program book. These can now all be found online on the conference's website.
- The APDR no longer prints certificates to be given in the congress. Thus, the digital certificates will be sent by email to each participant.
- The APDR Congress will no longer use plastic badge holders, eliminating a significant source of waste.
