Paulo Castro Seixas

Universidade de Lisboa; Email: euroseas2013@gmail.com

The aim and scope:

This session explores the critical role of knowledge management (KM) in fostering innovation and sustainable development within Public Administration (PA). It will focus on strategies and practices that enable the creation, sharing, and application of knowledge to address complex societal challenges. Case studies, methodologies, and challenges in integrating KM and innovation will be examined, emphasizing their impact on enhancing public sector efficiency and sustainability. The session aims to bring together researchers and practitioners to discuss how KM can drive innovative solutions and contribute to the advancement of sustainable development goals in PA.
